

#3050 Unshielded PVC Control Cables 105°C 600V UL 2586

Daburn 3050 series control cables offers designers and engineers a thinner 600-volt control cable to meet application goals as well as provide space savings for many industrial applications including Industrial controls and instrumentation, HVAC controls, appliance controls, and mixed voltage/signal environments.

The following are cable design benefits:

- Greater Flexibility
- Lighter weight constructions
- Easier to install
- Combine signal and power in single enclosure
- Fit smaller connectors
- Improved conduit & duct fill
- Smaller harnesses and bundles
- Smaller bend diameters
- Simpler junction box and panel layout

Description: This series is designed for 600 Volts, 105C maximum ambient temperature. Conductors are stranded tinned copper insulated with PVC. This series is RoHS Compliant

Operating Temperature: -20°C to +105°C

UL Voltage Rating: 600 volts UL AWM 2586 VW-1, CSA FT-4
